

1. The Universal Cryogenic Target . L.Kotchenda et al. Preprint PNPI 2816, 2009.
2. Measurement of the Spectrum of Neutrons Produced in pd Collisions at an Angle of $\theta=0^\circ$ at a Proton Beam Energy of 1 GeV. V.I. Medvedev et al. Physics of Atomic Nuclei, 2009.Vol.72,No.9 pp.1475-1478
3. Extra Physics with ABS and Lamb-shift Polarimeter. R. Engels, K. Grigoryev, M. Mikirtychiants, F. Rathmann, G. Schug, H. Seyfarth, H. Stroehrer, L. Kochenda, P. Kravtsov, V. Trofimov, A. Vasilyev, H. Paetz gen. Schieck, R. Emmerich, S. Paul, W. Schott, M. Westig. Polarised Sources and Targets 2009 international workshop, Ferrara, Italy.
4. Resonance Effects in Nuclear Dichroism – an Intensive source of Tensor-polarized Deutrons. H. Seyfarth, R. Engels, F. Rathmann, H. Stroer, V. Baryshevsky, A. Rouba, C. Deueke, R. Emmerich, A. Imig, K. Grigoryev, M. Mikirtychiants, A. Vasilyev. Polarised Sources and Targets 2009 international workshop, Ferrara, Italy.

Соавторство в публикациях экспериментов СТАР и ФЕНИКС(БНЛ,США)

Стар

18 публикаций в Phys. Rev

Феникс

7 публикаций в Phys. Rev
