

Fig. 1. Allowed values of  $M_H$  and  $M_4$  lie between two curves: a. solid for  $\Lambda = 10^5$  GeV; b. thin dotted for  $\Lambda = 10^{10}$  GeV; c. thick solid for  $\Lambda = 10^{15}$  GeV; d. thick dotted for  $\Lambda = 10^{19}$  GeV.
